

CURRICULUM VITAE	
Athens 2025	
Mastrogiannis Vassilios	
Mechanical Engineering	
Telephone:	6944 354092
Date of birth:	13.04.1967
Marital status:	Married with one child
Nationality:	Greek
e-mail:	vmastrogiannis@gmail.com
Member of the Technical Chamber of Greece:	1999
Education	
1999 National Technical University of Athens (NTUA) Master Degree on Science in Mechanical Engineering	
Attended Seminars	
1998 Cogeneration & Air Conditioning with Natural GAS HEND BY : NTUA - E.E.E.E 2002 Pressure Equipment Directive (97/23/EC) LLOYD'S REGISTER OF SHIPPING & INDUSTRIAL SERVICES S.A.	
Languages	
▪ English	
Computer Knowledge	
Extensive experience in use of Personal Computers (Microsoft Windows, Microsoft Office) and also various types of software for Mechanical Design studies such as: - "Caesar II", for pipe Stress analysis studies - "FCALC", "ADAPT", for mechanical design studies - "AFT Fathom", for pipe Network Flow analysis studies - "Fluid Flow", for pipe Network Flow analysis studies (Compressible and Incompressible Fluid) - "AFT Impulse", for pipe Network transient analysis studies - "CARRIER", "HVAC" and "SYSTEMS" for HVAC studies - "SPIRAX" for steam networks studies - "AutoCAD"	
Professional Qualifications/Memberships	
- Member of the Technical Chamber of Greece (T.E.E.- R.N.: 82101) - Member of the Hellenic Association of Mechanical and Electrical Engineers	
Key skills and experience and other relevant information	
Due to participation in certain large and complex energy and industrial projects in cooperation with international engineering/consulting firms and adhering to international codes and standards there is possession of extensive experience in : ♦ Mechanical/Electrical Design studies, with specialization in : - Stress Analysis Studies - Piping Design Studies - Flow Analysis studies - Safety Studies	

- HAZOP Studies
- Risk Assessment Studies
- Preliminary – Detail Design for PV Systems (connected grid)
- Preliminary – Detail Design for PV Systems (alone / pumping)
- ◆ Other Mechanical design studies, as :
 - Industrial Mechanical Systems
 - Building Mechanical Systems
- ◆ Preparation of Job Specification documents
- ◆ Preparation of Technical Description documents
- ◆ Preparation of Mechanical Calculation documents
- ◆ Preparation of Mechanical Installations Typical Detail drawings
- ◆ Technical Evaluation of Mechanical Equipment
- ◆ Technical evaluation of bids of suppliers for equipment
- ◆ Tender Documents Preparation
- ◆ Pipeline Engineering
- ◆ Tender Documents Preparation
- ◆ Preparation and monitoring for implementation of Health, Safety and Environmental Protection Systems
- ◆ Design, Development, Implementation and Operation of Technology Programs

PROFESSIONAL EXPERIENCE

Position and Main Discipline: Mechanical Engineer

Duties & Responsibilities

The main duties and responsibilities include:

- Stress Analysis
- Hydraulic Analysis
- Surge Analysis
- Mechanical Job Specifications and Technical Descriptions Preparation
- Mechanical Calculation documents Preparation
- Material Requisitions Preparation
- Technical Evaluation of bids of suppliers for equipment
- Preparation, Submission and Follow-up of documents and monitoring the issuance of permits in the Responsible Authorities

2015-Today:

“PowerServ Ltd” Engineering Consulting Company

Member

Participation in the design of the following projects:

PROMETHAN (2024-2025): DETAILED ENGINEERING, PROCUREMENT AND CONSTRUCTION OF THE PERDIKAS PERMANENT METERING/ REGULATING STATION- Engineering studies were conducted for the instrumentation, piping, and process systems

FARAN S.A. (2024-2025): New Sterile Injectables Facility (Studies for Permit, Basic & Detail Design)

PROMITHEAS ATEBE (2024-2025): Construction of a double bioclimatic nursery

Energy and functional upgrade and renovation of the Health Centers (HC) of Konitsa and Metsovo (2024-2025) - Electromechanical Studies

Energy and functional upgrade and renovation of the Health Centers (HC) of Amfilochia, Ano Kalentini, and Vourgareli (2024-2025) – Electromechanical Studies

DESFA (2024-2025): BASIC DESIGN FOR THE EXPANSION AND UPGRADE OF M/R STATIONS OF EXIT POINT TO DISTRIBUTION NETWORK “ATHENS” - The instrumentation, piping, and process systems underwent a comprehensive upgrade

"Preparation of a study for the replacement of the conventional lighting of the SNFCC facilities with new LED-type lighting." (2024)

«CONSULTANCY SERVICES FOR FEASIBILITY STUDIES AND DETAILED DESIGN OF CLIMATE CHANGE RESILIENT SOLID WASTE MANAGEMENT SYSTEMS IN THE LILONGWE CITY, MALAWI» (2024) - Electromechanical Studies

NEW FUEL STORAGE TANK TK5 (2023-2025) – Instrumentation and Electrical Studies

CONSTRUCTION OF THE NEW HERAKLION INTERNATIONAL AIRPORT IN CRETE AND ITS ROAD CONNECTIONS (2023-2025).

Design of the medium voltage network and substations.

Electrical Studies for:

- Ground Transportation HUB
- Main Terminal Building
- Tower Control Building
- Parking Area
- Sewage Treatment Plant

PROMETHAN S.A. (2023-2025): «PROCUREMENT AND INSTALLATION OF KORINTHOS METERING /REGULATING STATION» for Electromechanical Studies

VIOTI PHARMACEUTICALS S.A. (2023-2024): NEW INDUSTRIAL UNIT

PHARMATHEN (2023): New Ophthalmic Plant

FULL SUPPLY AND INSTALLATION OF EQUIPMENT FOR THE H2 INNOVATION HUB (H2-HUB) (2022-2025) – Electromechanical studies and Process

MUNICIPALITY OF IOANNINA CITY (2022-2024): Construction of a Municipal Building with a Multi-Purpose Area at «ΔΟΜΠΟΛΗ» Building

ALMARIET (2022): Preparation of a grid connection terms study for a 20 MW photovoltaic (PV) power plant in Vonitsa

NESTLE ATHENS OFFICES (2022): As Build Drawings

VIVA WALLET (2022): Interior Layout in office buildings, roof configuration, pergola construction on the roof, and an entrance canopy

VENTAVEL S.A. (2021): Technical inspection of a 34 MW Wind Farm at the 'Melia' location, Siatista, Kozani region

PHOTOVOLTAIC ENERGY (2021): Development of electromechanical design studies and detailed drawings for the buildings of the photovoltaic step-up substation at Vathylakkos, Kozani.

Contract for the assignment of electrical engineering design services for the permitting of four wind farms with a total installed capacity of 300 MW at the locations: 'Almyres–Pagos', 'Fylakes–Aetos–Mavra Chomata', 'Trani Rachi–Chersos Lofos–Pigadia', and 'Lagos–Pyrgos Alonia' in the Regional Unit of Evros (2021)

VATORA ENERGY S.A. (2020): Engineering, construction, and operation of a 30 MW Wind Farm at the 'Lykotrypes' location, Municipality of Antirrio, Aetolia-Acarnania.

Olympic Fuel Company S.A. (2020): Electrical design services for the project of “Revamp of Aviation Fuel Receipt Piping System”

PPC-Renewables (2020): Inspection of the Wind Park of Andros for TUV Austria (1,57MW)

LPC S.A. (2019-2020): Services for the preparation of electromechanical studies and supervision, including the interconnection through piping with the existing pumping station of the facility for tanker loading at Aspropyrgos, Attica.

AKTOR - J & P AVAX S.A. (2019-2020): Services for the preparation of design studies and supervision for the DESFA S.A. project: Detailed design of metering stations U2220 and U2240 in Thessaloniki.

Motor Oil Hellas (2019): Electrical and Mechanical design services for the project of “Installation of Compressed Natural Gas Filling Station”

CORAL S.A. (2019): Electrical and Mechanical design services for the project of “Kalohori Terminal Upgrading

Vector Engineers SA (2019): As member of the Vector’s design team, participation in the construction of the parts of A and D of the building complex “*Piraeus Port Plaza 3*”

- Also participation in the design of the electrical installation of a new residence in Psychiko as a pilot smart and green building.

Arinomario S.A (2018-2019): Engineering, Construction, Operation, and Maintenance of a 12.8 MW Wind Farm at the 'Profitis Ilias' location, Municipality of Alexandroupoli, Thrace

Energiaki Kykladon Limited Liability Company (2018-2019): Construction of a Wind Farm at the 'Tragoudistis' location, Sifnos Island, Cyclades

Motor Oil Hellas (2018): Electrical and Mechanical design services for the project of "Construction of a new Tank Farm at Bromopigado area"

Construction of a 90 MW Wind Farm in the Azov area, Russia (2017-2020).

AKTOR S.A. (2017-2019): Engineering, Construction, Operation, and Maintenance of a 24 MW Wind Farm at the 'Gavrovo' location, Municipality of Amfilochia, Aetolia-Acarnania.

DOMOS FERON S.A. (2017-2018): Services for the preparation of studies and supervision during the construction of the new quay at Piraeus for PPA S.A., covering the loading and unloading berth area serving the facilities of CORAL, AVIN, and JETOIL.

AEGEAN S.A. (2017-2018): Services for the preparation of detailed design studies for the New Tank Farm for Ballast Treatment project in Drapetsona.

VIOPAR ENERGY S.A. (2017): Consulting services for the project of "Construction a Biomass Power Plant 5MW production of electricity at Volos".

Engineering, Construction, Operation, and Maintenance of a 50 MW Wind Farm at the 'Kasidiaris (2016-2020)-I' location, Municipality of Pogoni - Zitsa, Epirus Region (currently under construction).

DOMOS FERON S.A. (2016): Electrical and Mechanical design services for the project of "Construction of the new Oil Terminal of Piraeus for PPA S.A. and for the ship loading and unloading facilities of CORAL, AVIN, JETOIL.

Ergotem S.A. (2016): Electrical and Mechanical design services for the project of "Construction of Fuel Storage Facilities in Camp Lemonier, Djibouti, Africa, for US NAVAFIC"

ELINOIL Hellenic Petroleum Company S.A. (2016): Electrical and Mechanical design services for the project of "Construction of a (1) new pumpstation and its interconnection through pipelines 8 " - 6 " - 10 " with the existing tanks of the facility for the loading of tankers in Agria Volos".

ELINOIL Hellenic Petroleum Company S.A. (2016): Electrical and Mechanical design services for the project of "Construction of 3 new tanks (1000 m3 each) and their interconnection through pipelines 8 " - 6 " - 10 " with the existing pumpstation of the installation for the loading of tankers in Aspropyrgos Attica".

DEI S.A. (2015-2016): Development of electromechanical and automation design studies for a 45 MWth thermal capacity project at the Agios Dimitrios Power Plant, Kozani.

PPC – Public Power Company (2015): Electrical and Mechanical design services for the project of “Aghios Dimitrios SES design, supply, installation and putting into operation of two (2) thermal power transfer systems to convey 45MWth per unit from the already installed flue gas-water heat exchangers in Units I and II to the already installed FGHRs in units III and IV of Aghios Dimitrios SES for condensate preheating in Units III and IV, respectively”.

J & P AVAX A.E.(2015) : Electrical and Mechanical design services for the project of “Detail Design Vitol Tank Terminal Vassilikos (VTTV), Cyprus”.

METKA S.A. (2014-2020): Provision of study preparation services for the following projects:

- Open Cycle Power Plant, 600 MW, Hassi R'Mel, Algeria
- Samra Power Station – Phase III Add-On Combined Cycle Project
- Open Cycle Power Plant, 1250 MW, Al Basra, Iraq
- Combined Cycle Power Plant, 775 MW, Denizli, Turkey
- Combined Cycle Power Plant, 870 MW, Samsun, Turkey

CORAL S.A. (2014-2015): Development of electromechanical and automation design studies for the upgrade of crude oil (heavy fuel oil) storage tanks in Perama.

LPC S.A. (2014): E/M design and supervision services for the construction of one (1) lubricant tank 1000 (m)³ and its interconnection through piping with the existing pumping station of the facility for loading tanker trucks in Aspropyrgos, Attica.

J & P AVAX A.E. (2014): Services for the preparation of a study and supervision of a fire extinguishing network for FM APPROVED approval of the facilities of the company PAPASTRATOS S.A. in Aspropyrgos, Attica.

AKTOR - J & P AVAX S.A. (2014): Design and supervision services for the DESFA S.A. Detail Design of two metering Station U2220 and U2240 in Thessaloniki.

METKA S.A. (2014): Study Preparation Services for the Projects:

- Open Cycle Power Plant of 600MW, Hassi R'Mel-Algeria
- Samra Power Station – Phase III Add On Combined Cycle Project
- Open Cycle Power Plant of 1250MW, Al Basra-Iraq
- Combined Cycle Power Plant of 775MW, Denizli-Turkey
- Combined Cycle Power Plant of 870MW, Samsun-Turkey

DEI (2014): E/M design services and supervision for a project at the Agios Demetriou Power Plant, in Kozani, with a thermal power of 45MWth

PIRAEUS CONTAINER TERMINAL S.A. (2014): Project Name: E/M design services and supervision for the construction of a new oil station.

DOMOS FERON S.A. (2014): Design and supervision services for the construction of the new pier of Piraeus for PPA S.A. and for the loading and unloading front of ships to the facilities of CORAL, AVIN, JETOIL.

ELINOIL S.A. (2014): E/M design and supervision services for the construction of 3 new tanks of 1000 m³ each and their interconnection through 8"-6"-10" pipes with the existing pumping station of the facility for loading tanker trucks in Aspropyrgos, Attica.

ELINOIL HELLENIC PETROLEUM COMPANY S.A. (2014): E/M design and supervision services for the construction of one (1) new pumping station and its interconnection through 8" pipes. 6"-10" with the existing tanks of the facility for loading tankers in Agria, Volos.

J&P AVAX S.A. (2013-2024): Services for the preparation of detailed design studies for the Vitol Tank Terminal Vassilikos (VTTV) project in Cyprus

MALLIONTA (2013-2014): Development of electromechanical and automation design studies for the project 'Maintenance and Modification of Electromechanical Installations at Soroni Power Plant

BCI Renewables (2012): Development of the design study for the 1.5 MW PV installation in the Cherso region, Kilikis

BCI Renewables (2012): Development of the design study for the 2 MW PV installation in the Kalentzi region, Karditsa.

2008-2012:

B&I MEC TEXNIKH O.E.

Participation in the design of the following projects:

ELINOIL S.A.: Upgrading of Porto Lagos Terminal new Tanks

ELINOIL S.A.: Upgrading of Aspropirgos Terminal new Tanks

MANOS S.A.: Biodiesel Plant

CROSS TECHNICAL SERVICES LTD: Blender unit dn200 hfo dn100 mdo pn10 with frame

AEGEAN OIL TERMINAL CORPORATION: New fuel oil tank farm AL FUJAIRAH, U.A.E

HELLENIC PETROLEUM BULGARIA PROPERTIES: Oil and LPG storage transfer facilities "GARA-YANA TERMINAL "

UNITED ARAB EMIRATES: ProSheikh Khalifa Bin Zayed Centre for Marine Research UMM Al Quawain

VTTV: VTT VASILIKO OIL TERMINAL

AEGEAN: Ballast Treatment Tank Farm

ELINOIL HELLENIC PETROLEUM COMPANY S.A.

Project:

- Preparation of studies for the upgrade of the liquid fuel storage and distribution facility located in Agria Volos.
- Preparation of studies for the installation of new tanks, the modernization and expansion of ELINOIL's facilities in Porto Lagos.
- Preparation of studies for the expansion of the installation of liquid fuels and the creation of new tanks in the newly built Aspropyrgos Reservoirs.

ELIN TECHNIKI S.A.: Preparation of implementation studies for the construction of a new factory of WEIDENHAMMER HELLAS S.A. in Oinofyta, Viotia.

DSGI SOUTH EAST EUROPE S.A.: Preparation of implementation studies in KOTSOVOLOS stores.

MANOS S.A.: Preparation of studies for the implementation of a Biofuel production unit in the Second Industrial Area. Volos.

ALEXANDRIA IKODOMIKI TECHNIKI KTIO MASITIKI EMPORIKI A.E.: Preparation of final and implementation studies as well as supervision of electromechanical works in a three-storey office building with basements, at 247 Kifissias Avenue in Kifissia.

CROSS TECHNICAL SERVICES Ltd.: Preparation of a mechanical study for blender unit dn200 hfo dn100 mdo pn10 with frame.

AEGEAN OIL TERMINAL CORPORATION: Preparation of studies for the creation of a new oil reservoir in storage at Al Fujairah, United Arab Emirates.

HELPE BULGARIA: Preparation of a mechanical study for the construction of oil and LPG storage facilities at the Gara-Yana terminal.

UNITED ARAB EMIRATES: Preparation of an engineering study for the creation of the UMM Al Quawain Marine Research Center by Sheikh Khalifa Bin Zayed.

1999-2008

FREELANCER

C&M ENGINEERING S.A

Participation in the design of the following projects:

PUBLIC GAS CORPORATION OF GREECE (DEPA) S.A.: Expansion of LNG Terminal at Revithousa

EL.PE.T. VALKANIKI S.A.: Crude Oil Pipeline from Thessaloniki to Skopje.

TRITON Ltd: Polypropylene Ship Unloading Facilities (High Pressure Pipeline)

MOTOR OIL (HELLAS) CORINTH REFINERIES S.A.: Upgrading of MEK Dewaxing Unit

ELINOIL S.A.: Biodiesel Production Plant

PETROLINA (HOLDINGS) Ltd: New Bottom Loading and Vapour Recovery System, at Larnaca Oil Terminal, Cyprus (Client: KINTEC S.A.)

ELINOIL S.A.: Upgrading of Truck Loading Facilities at Aspropyrgos, Attiki

MOTOR OIL (HELLAS) CORINTH REFINERIES S.A.: Front End Engineering for LPG Truck Revamping

AVIN OIL AVENEP: Upgrading of Avin Truck Loading Terminal

HRON THERMOELECTRIKI O.E.:

- Phase A : Gas Turbine Plant – Open Cycle 3 x 49,254 = 147,762 MWe
- Phase B: Gas Turbine Plant – Combined Cycle 400 MWe

ATHENS WATER SUPPLY & SEWERAGE CORPORATION (E.YD.AP.) S.A.: Electrical and Thermal Cogeneration Plants at Psytalia and Metamorfosi WWTP

ELINOIL S.A.: Upgrading of Truck Loading Facilities at Porto Lagos, Xanthi

SHELL HELLAS S.A: Upgrading of Truck Loading Facilities at Volos

SHELL HELLAS S.A.: Upgrading of Truck Loading Facilities at Rio

GENERAL SECRETARIAT OF SPORTS: Galatsi Olympic Indoor Hall

EKO - ELDA S.A.: New Storage and Loading Facilities for Liquid Fuels and LPG at Alexandroupoli

SHELL HELLAS S.A.: Perama Truck Loading Depot Upgrading

SHELL HELLAS S.A.: New Tank Farm and Truck Loading Station at Kalohori, Thessaloniki

HELLAS FARM S.A.: Meat Productions Plant Renovations and Expansion at Trikala

EPA ATTIKI S.A.:Preparation of the Technical Volume of Tender Documents for connection with natural gas of Thriassio area, OAKA and various projects

EPA THESSALONIKI S.A.: Extension of the Thessaloniki MPTS 19 bar from Amylum Factory up to Macedonia Airport
